

hello, my name is joana santos

I'm a Libra born in 1992 with a background in fine art and design. Since 2017, I've been working as a multidisciplinary designer, and over the past two years, I've focused primarily on creating human-centered solutions—mostly websites. While I recognize there's still much to learn, my dedication, strong work ethic, and continuous drive to improve keep me moving forward.
